

Short CV Dr. Kurt Bisang

Dr. Kurt Bisang works for the Swiss Federal Office of Energy (SFOE) since 2005. Since 2013, he is head of section of appliances and competitive tenders and responsible for implementing measures in Switzerland for the efficient use of electricity. This includes the mandatory requirements for energy-using and energy-related products, the Swiss energy efficiency bidding and auction system (ProKilowatt), as well as measures related to information and further education. Before, he was working for SFOE as, among others, the head of the executive staff and as an energy policy and evaluation officer, and in different positions in the Swiss Institute of Technology (ETH Zurich) and the University of Zurich. He holds a Ph.D. in political science of the University of Zurich.
