

Melik Huseyin Hamidiogullari is an Industry and Technology Expert at Ministry of Industry and Technology DG for Market Surveillance and Inspection. He worked in many different sectors and legislation such as ATEX, Automotive Industry and now responsible for market surveillance inspection under the scope of Energy Efficiency products.

He has built up experience in particular with:

- 2009/125/EC Eco-design Directive and Implementing Directive
- 2010/30/EU Energy Labelling Directive and Implementing Directive
- 2014/34/EU Equipment for Explosive Atmospheres (ATEX) Directive
- Horizontal Legislations (Regulation (EC) 765/2008, Directive 2001/95/EC)

Also, he participates in different projects on energy efficiency to build on energy goals and reduce greenhouse gas emissions, to promote the deployment of energy efficiency awareness and to achieve significant energy savings.

- Energy Efficiency ComPLIANT Products (EEPLIANT-3)
- Promoting Energy-Efficient Motors in Small and Medium Sized Enterprises Project (TEVMOT)
- Energy Efficiency Project of Electric Motors (S-EMOP)
- The Market Surveillance Action for Tyres (MSTyr15)
- Market Transformation of Energy Efficient Appliances in Turkey (EVU-dP)
